SIR,

In continuation of this office docket No. 1392 dated 11th. Instant; I have the honor to submit herewith copy of docket No. 29 dated 7th. February 1899 from the Assistant Engineer on Plague duty to the address of the Chief Plague Officer, Mysore, together with the accompanying two alternative estimates, one for roofing with tiles the incomplete houses in the Mysore Weaver Lines amounting to Rs. 16,600 and the other for putting up thatched roofs for the same which comes to Rs 9770 and to state that under the circumstances explained by the Assistant Engineer in his report, I am of opinion that it would be better to have the houses roofed with tiles if the Government consider it is necessary to roof the buildings which have already

Cost Rs 52,000/- or more.

I therefore request that you will be good enough to obtain the early sanction of Government to the larger estimate of Rs. 16600/-

3. Extracts from the Government order No. 4068-9 dated 23rd January 1899 directing the foreclosure of the mortgage and from your minute passed at the meeting held on the 22nd idem are herewith transmitted for ready reference.

Plague Commissioner's Notes of Inspection of Veeramma's Lines.

Mysore 22 January 1899

The ground between the lines should be levelled and the hollows covered. The houses without roof are overgrown with rank vegetation. This should be removed and the houses roofed with thatch or tiles and made habitable and rented to applicants of whom I noticed some from different Mohallas

W

Estimate of the probable cost of Roofing the incomplete houses in the Weaver's lines at Chamarajapura Mysore.

Report

With a view to provide healthy places of residence for those who wish to leave the Plague infected parts of the city of Mysore, the incomplete houses in the Weaver's lines which were recently taken over by Government are proposed to be completed and made habitable.

The Completed houses are all roofed with tiles; and the tiling of the remaining houses will give a finished appearance to the settlement and also be an improvement of a permanent nature. An estimate for the work is therefore prepared amounting to Rs 16,600/- It provides for rebuilding up the dilapidated walls to full height and roofing all the 41 houses in the same style as the present houses.

Owing to the increased cost of labour,

and

owing the difficulty of getting materials at this time, the rates for the items are slightly higher than those usually in force, and are very necessary to the speedy completion of the work.

An alternative estimate providing for roofing with thatch is also prepared and submitted, in it the front Verandah has been left out, as without it there is ample room for one family to live temporarily. This estimate amounts to Rs 9770 or Rs 6830 less than the other; and orders are solicited as to which of the 2 can be carried out; work has been started on ten houses according to the 1st estimate in anticipation of sanction as it was considered urgent

There is no doubt, tiling will be better, as the thatching though cheaper at starting is liable to decay. It is moreover difficult to get thatch in

Such

Such large quantities at present, and work may be delayed.

Deputy Commissioners office
Mysore District

Dated Mysore 19th February 1899

To

The Plague Commissioner
in Mysore

Early Sir,

In continuation of this office letter No 1402 dated 14 instant, forwarding two alternative estimates for roofing the incomplete houses in the Mysore Weavers Lines, I have the honor to submit the accompanying application from Nagappa, a resident of the said Lines - and I believe a son of Sowcar Veeranna. offering to roof the houses with tiles for Rs 10,000, if the materials at site be granted to him free of cost, and to state that if it is decided to have the roofing carried out, it may be given out on contract to the applicant as his terms are more advantageous and profitable to Government being Rs 4000 less than the estimate already submitted.

The value of the materials

which the applicant asks for is estimated at Rs 2000/.

I have the honor to be
Sir,
Your most obedt servant.

Enclosure No.

Sir

With reference to para 8 of Govt Pro: No (2) 4968-9 dated R-7. 81-95 23rd January 1899, I have the honor to forward herewith two alternative Estimates for Rs 16,600/- & 9770 respectively for roofing the incomplete houses in the Weavers lines at Mysore with tiles or thatch. The Deputy Commissioner is of opinion that it would be better to have the houses roofed with tiles if the

Government consider it necessary
to roof the buildings which
have already cost Rs 52000 or
more. The Asst Engineer on
Plague duty who has prepared
the Estimate also considers
that tiling would be better
as thatching though cheaper
at starting is liable to decay
& it is moreover difficult
to get thatch in such large
quantities at present.

It has however since
been arranged to give the
work of roofing all the houses
with tiles, on contract to Nagappa son of
Somana Veerauna who has
agreed to do the work for
Rs 10,000/. in addition to the
free grant of materials on
site the cost of which is
estimated at Rs 2000/. The
Deputy Commissioner has been
asked to see whether a further
reduction is not feasible and
to expedite his reply in a few
days.

In the meantime the Superintending Engineer Sanitary Circle, having solicited speedy orders for the completion of the work, I have the honor to request the favor of your obtaining the sanction of Government to ~~the original Sale~~ a lumpsum ~~to~~ Expenditure of Rs 12000/- (including the value of the materials) being incurred in connection with the roofing of the houses referred to the ~~Commands~~ same being met from Provincial Funds as laid down in para 10 of the Govt Pros. above cited.
